We have a long history of making inserted tooth saw blades and have been manufacturing them since 1991. More recently, we expanded on this by offering large diameter inserted tooth blades and now have hundreds of customers using these blades everyday. Our blades are custom made to order, with the type of teeth & shanks you order and hammered for your mill. Made from the highest quality alloy available for saw steel, precision cut and CNC machined, we guarantee these blades to perform on the job.

Piper's Saw Shop	
Piper Inserted Tooth Saw	
Description	Price
56" Piper Inserted Tooth Saws..... ea.	\$1,995.00
60" Piper Inserted Tooth Saws..... ea.	\$2,500.00

For over 180 years Simonds has thrived in the saw business by manufacturing the best saws in the industry. Simonds Trademark Series Inserted Tooth Saws are produced using Nickel Alloy plate that is processed in their new heat treat facility. Their new on-site heat treatment is producing plates with a consistent hardness and uniform flatness that is not available from 3rd party plate suppliers. Simonds saws keep maintenance costs down, maximize saw run time and add profit to your bottom line.

The Trademark Series Saw features:

- » Finest Quality Nickel Alloy plate manufactured in Big Rapids, MI.
- » Precision Laser Cutting and CNC milling
- » Computer controlled spin tester checks for vibration and run out

They have the most experience in the business of manufacturing saws, they not only manufacture their own plates but they also manufacture the bits and shanks as well. Simonds has a complete understanding of what it takes to build the best saw in the business.

They make the best – And now they just got better!

Piper Cut Down

BEFORE & AFTER

Saws with excessive damage can be cut down into a smaller saw. This creates a like new saw from what is otherwise scrap metal. Machined with our CNC milling machines and hammered for your mill, it is as close to a new saw as you can get.

Carbide tip saw blades have endless applications and come in an endless variety of configurations. We deal with only the most reputable suppliers of saw plates and finished blades. Here we have listed some common blades but if you don't see what you looking for, we would appreciate the opportunity to provide you with any other blades as well, including custom made blades.

Side Dial Indicator

\$100⁰⁰ ea.

Used to measure side clearance for carbide saw blades. Graduated every .001"

We have been manufacturing Inserted Tooth Edger Saws for over 15 Years now. Our plate suppliers use steel alloys especially designed for the abuses that a saw has to endure. The machining is done on our CNC Milling machines that ensures the bit and shank fits just as it should. The arbor, pinholes and keyways are machined to fit your machine.

Phenolic Sticks

Phenolic is a hard, dense material made by applying heat and pressure to layers of paper or glass cloth impregnated with synthetic resin. The end result is a material that can be machined into components with endless applications. Ideal material for circular saw guides.

The Simonds Super Shank design has several efficiency promoting features. Its full end disperses chips, prevents clogged gullets and stops bit creepage. Uniform flat grinding on the sides forms a full swage along the entire gullet which increases saw dust holding ability and improves saw stability in the cut.

Simonds Super Shanks

Part No.	Description	Price
103913	F Style 9 Gauge Super Shankea.	\$9.23
103917	F Style 8 Gauge Super Shankea.	\$7.18
103921	F Style 7 Gauge Super Shankea.	\$7.28
103907	B Style 8 Gauge Super Shankea.	\$7.18
103910	B Style 7 Gauge Super Shankea.	\$9.23

Made of Simonds Special Alloy Spring Steel, Red Circle Shanks are specially tempered for maximum spring and toughness. Uniform flat grinding on the sides forms the full-swaged design which has superior sawdust holding capability that keeps dust from spilling past the shank into the cut. Shanks and bits should be well oiled before insertion. Regular style shanks are suitable for use with all types and styles of bits. Shanks are available in both standard size and oversize. Packed 50 per box.

*Availability may limited and/or minimum order may be required.

101521	Chain Saw File Handle.....ea.	\$1.65

Mill - Excellent for a wide range of applications such as sharpening, draw filing, lathe work and general shop use. Mill Files are single cut on the sides and edges, and taper towards the point in width.

Mill w/ 2 Round Edges - Similar to standard Mill Files but with two rounded edges. Round Edge Mill Files are single cut on the sides and edges, and are parallel in width and thickness (blunt). Available in Bastard cut only. Packaged one dozen per box.

Mill Files

Part No.	Description	Price
102198	8" Mill Bd File.....ea.	\$4.70
102199	10" Mill Bd File....ea.	\$6.00
102200	8" Mill Bd File w/ Round Edges....ea.	\$7.75
102201	10" Mill Bd File w/ Round Edges....ea.	\$10.95
104924	Skroo-Zon File Handle.....ea.	\$2.95

Simonds Wintar shanks have all the benefits of our super shank as well as a flat chip breaker which is easily maintained with a hand file or by grinding.

Simonds Wintar Shanks

103918	F Style 8 Gauge Wintar Shank....ea.	\$7.79

Piper Regular Shanks

Part No.	Description	Price
103106	F Style 8 Gauge Piper Shankea.	\$5.50

Jones Saw Tools

»Hardened, reversible tooth rest and hardened tooth stop

»Wide Body Style allows room to work when changing or reversing tooth rest.

»8 amp 115 volt AC motor

Jones Longhorn	Part Number	Description	Price
	106837	Longhorn Saw Grinder ea.	\$598.00
	101743	4 x 3/4 x 5/8 Round Arbor Diamond Wheel ... ea.	\$110.00
	106274	4-1/2 x 3/4 x 5/8 Round Arbor Diamond Wheel ea.	\$115.00

Jones Saw Tools

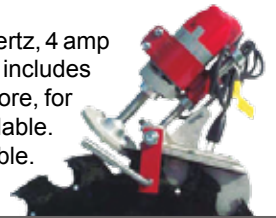

Quickly sharpens Inserted Tooth Cut Off teeth. Works on Kodiak, F-2000 and 440 hollow point. Will work from either the front or rear of the tooth. Pneumatic model available. Diamond drum included.

Jones SX33D	Part Number	Description	Price
	107214	SX33D Slasher Saw Grinder ea.	\$425.00
	107116	32mm Diamond Drum ea.	\$120.00

Uses Milwaukee 0-2500 RPM, 120 volt/60 hertz, 4 amp motor, also available without motor. Price includes one 4" diameter flat emery wheel with 1/2" bore, for use on steel teeth, additional wheels available. Diamond wheel for carbide teeth available. Pneumatic and 12 volt model available.

Andrus Electric Grinder	Part Number	Description	Price
	102142	Andrus Electric Grinder ea.	\$615.00
	102584	3-1/2 X 3/8 X 1/2 Ruby Grinding Wheel ea.	\$17.95

Side handle allows for quick change from tooth to tooth. Alloy frame makes sharpener light weight. Andrus Hand Filer available in right hand and left hand models. Price includes one file set for steel teeth, additional file sets available. Diamond wheel available for carbide teeth.

Andrus Hand Filer	Part Number	Description	Price
	102354	Andrus Hand Filer..... ea.	\$260.00
	102594	Andrus File Pad..... ea.	\$16.95

SAFE – POWERFUL – ACCURATE – BALANCED

A balanced machine for better results. Pulls back easily for grinding wheel contact to inserted saw tooth to be ground. Uniform fast cutting action is guaranteed for better quality cut lumber. A real rugged grinder – for maximum performance and production. Only the Jockey Grinder gives you all these features.

- »Diamond wheels available for carbide bits
- »Sharpens saw teeth correctly every time
- »No need to lift machine when in use as it pushes along easily from one tooth to the next
- »No clamping of the machine to the saw is necessary
- »Fast – Smooth – Clean Cutting Action – No burn on saw teeth
- »Shielded from all dust – dirt and abrasive particles
- »Replacement parts available
- »Pneumatic motor available

Wood-Mizer

Part No. 105490

Set Gauge

Tooth Set Gauge includes: A calibrating pin and gauge foot to ensure dial needle reads zero. A clamp knob and plate to secure the blade. A dial gauge to display set measurement.

**AGGRESSIVE.
ACCURATE.
AFFORDABLE.**

silverTIP Wood-Mizer
CARBON BANDSAW BLADES

PROFILE GROUND TOOTH

Economical blade for the resaw industry.

This blade is made specifically to meet the needs of the resaw industry and is ideal for applications where multiple re-sharpenings are not desired. The SilverTip features much tighter manufacturing specs than the competition's blades. The SilverTip is made with a higher carbon content than most blades, with a high-durability steel suited to high-volume sawing environments.

WOODMASTER® C

CARBON STEEL BLADES FOR RELIABLE PERFORMANCE

DELIVERS STRAIGHT CUTS AT HIGH BAND SPEEDS
Engineered for demanding saw mill and resaw applications

BLADES LAST LONGER AND WEAR EVENLY
One piece carbon steel construction with induction hardened tooth tips

FASTER CUTTING AND INCREASED PRODUCTIVITY
Improved beam strength for high feed rates

\$265⁰⁰ ca.

Part No. 102108 Tension Gauge

The Tension Meter ensures you get long blade life and straight cutting by showing you when tension is too high, too low or just right. It reduces blade breakage by alerting you to high tension before it's too late. A precision Dial Indicator provides you with a direct readout in psi tension.

The Tension Meter is made of lightweight, cast aluminum for optimum accuracy. Bright color coding makes it easy to use and easy to read. The Tension Meter comes in a handy metal box with instructions on the lid.

With flexible shafts still hand-crafted from the finest split hickory money can buy, these rules have a special quality due in large part to the meticulous care that is taken in the selection of raw materials.

The patented heads are one-piece, light-weight hardened stainless steel with pre-bent sharpened points for grabbing the lumber. They will never rust and the points stay sharp a very long time. The figures are large, crisp, bold and black for ease of reading.

Each ruler has a six inch walnut handle, sized for comfort and rounded to fit the palm of your hand. Finally, each ruler is protected by two coats of polyurethane, giving lasting abrasion resistance and protection. Two scale configurations offered: 4-line: 9', 11', 13', 15' one side 10', 12', 14', 16' other side. 3-line: 8', 10', 18' one side 12', 14', 16' other side. Two head types: Go No Go notched or straight.

101510	Finger Thickness Gauge.....ea.	\$21.95

The Megahook offers maximum leverage at 78" long. The Megahook has 1.75" diameter, reinforced handle and a larger hook, for moving the biggest logs. It will grip 15" - 45" diameter log. The Megahook is only available as a cant hook.

Also offered are two smaller versions of the Megahook for moving those extra heavy logs in extreme applications. Available as a cant or peavey, they have the same reinforced handles of the Megahook. Same length and diameter as our standard series 60" tool but weigh about 3 pounds more.

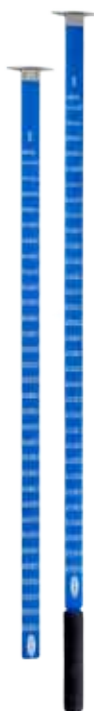

They are offered only in yellow to differentiate them from standard duty tools.

Mill Specials are designed for sawyers. These cant hooks have a baseball bat end stop rather than a rubber grip and are shorter so they don't get in the way. Have a 1.375" diameter handle and will grip 8" - 32" diameter logs.

HYBRID END SEALER FOR GREEN LOGS AND LUMBER

A hybrid of plant-based polymers and petroleum wax that protects the ends of green logs and lumber. AS2® is formulated mainly for North American hardwoods.

Made from renewable, natural ingredients and less petroleum-based raw material, AS2® is a high-performance, economical choice for customers. AS2® hybrid wax coating seals the ends of logs and lumber to protect against end checking and costly degrade, during air-drying before processing or kiln-drying.

When applied immediately after sawing, ANCHORSEAL 2®:

- » Prevents up to 90% or more of end checking (drying splits)
- » Reduces losses: Conserves resources and improves yield
- » Can help reduce blue stain in logs.
- » Cost-saving, environmentally friendly technology

Easy to use, can be applied with Brush or Sprayer.

EP-1425 Tensioner for Steel Strapping

SD Feedwheel Tensioner
Strap Width Range (3/8" to 3/4")
Strap Gauge Range (.018 to .025 HT)
For use with Open Seals

Part No.	Description	Price
106984	EP-1425 Tensioner..... ea.	\$149.95

EP-1450 Tensioner for Steel Strapping

HD Feedwheel Tensioner
Strap Width Range (3/4" to 1-1/4")
Strap Gauge Range (.025 to .031)
For use with Open Seals

Part No.	Description	Price
106993	EP-1450 Tensioner..... ea.	\$289.95

FH54 Tensioner for Steel Strapping

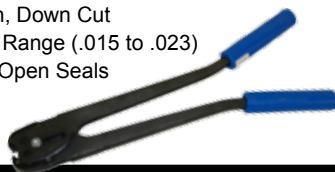

The FH54 is a high quality feedwheel tensioner for flat products. It is a very versatile tool and allows unlimited take-up when fed directly from the coil. It handles widths up to 3/4" and up to .023 thickness.

Part No.	Description	Price
102650	Tensioner for 3/8" through 3/4" ea.	\$135.00

EP-1800 Sealer for Steel Strapping

SD Front Action Sealer
Double Notch, Down Cut
Strap Gauge Range (.015 to .023)
For use with Open Seals

Part No.	Description	Price
106985	EP-1800-12 Sealer for 1/2" Steel..... ea.	\$59.95
106986	EP-1800-58 Sealer for 5/8" Steel..... ea.	\$59.95
106987	EP-1800-34 Sealer for 3/4" Steel..... ea.	\$59.95

EP-2450 Strap Shears

Premium Strap Shears
Single Hand Operated
Strap Widths 3/8" through 1-1/4"
For Strap Gauges up to .031

Part No.	Description	Price
106196	Premium Strap Shears..... ea.	\$49.95

EP-2500 Strap Shears

Heavy Duty Strap Shears
Two Hand Operated
Strap Widths 3/4" - 2"
For Strap Gauges up to .044

Part No.	Description	Price
107207	Heavy Duty Strap Shears..... ea.	\$142.95

Fromm A335 Sealless Combination Tool

Tried and tested universal sealless steel strapping tool for all applications. Reliable, rugged and service-friendly. Characterized by their simple operation and light weight, the A335 has become an indispensable helper worldwide.

Light weight tool for ultra tensile and high tensile strap. For strap thicknesses from .015 to .023.

Part No.	Description	Price
105421	Fromm A335 1/2" Sealless Tool ea.	\$1050.00
105401	Fromm A335 5/8" Sealless Tool ea.	\$1050.00
105413	Fromm A335 3/4" Sealless Tool ea.	\$1050.00

Fromm A333 Sealless Combination Tool

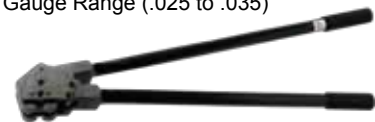

Handy light weight sealless combination tool to strap flat packages (i.e. pallets, bales, crates, cases, various packages). Permits a very easy and efficient operation and outperforms other strapping tools by its ruggedness and its high reliability. The sealless joint reduces the overall strapping cost by approximately. 10% through the elimination of the seals.

Part No.	Description	Price
107208	Fromm A333 1/2" Sealless Tool ea.	\$1135.00
107209	Fromm A333 5/8" Sealless Tool ea.	\$1135.00
106411	Fromm A333 3/4" Sealless Tool ea.	\$1135.00

EP-1880 Sealer for Steel Strapping

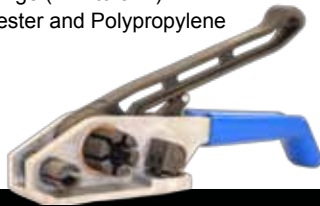

HD Side Action Sealer
Single Notch, Down Cut, Closed Seal
Strap Gauge Range (.025 to .035)

Part No.	Description	Price
106988	HD Single Notch Sealer for 1-1/4" Steel ea.	\$242.95

EP-1150 Tensioner for Poly Strapping

Premium Windlass Strap Tensioner
Strap Width Range (1/2" to 3/4")
Works on Polyester and Polypropylene

Part No.	Description	Price
105912	EP-1150 Tensioner for 1/2" to 3/4"..... ea.	\$124.95

EP-1250 Sealer for Poly Strapping

Premium Front Action Sealer
For Serrated Seals, 17" Handles

Part No.	Description	Price
106983	HD Sealer for 1/2" Poly..... ea.	\$94.95
105911	HD Sealer for 5/8" Poly..... ea.	\$94.95
107210	HD Sealer for 3/4" Poly..... ea.	\$94.95

EP Strapping Dispenser

Standard Duty Strapping Dispenser
For oscillated wound strapping.
Core I.D. 16"
Face Width 3"-8"
8" Rubber Tires
Quick Load System

Part No.	Description	Price
106990	SD Strapping Dispenser ea.	\$239.95

Open Seals for Steel

Fast and easy to use, open seals can be placed over the strap before or after tensioning. By far open seals are the most common type of seal used with steel strapping.

Part No.	Description	Price
101011	1/2" Open Seals, 2500 Count.....ea.	\$39.95
101012	1/2" Open Seals, 5000 Count.....ea.	\$79.95
101021	5/8" Open Seals, 2500 Count.....ea.	\$39.95
101022	5/8" Open Seals, 5000 Count.....ea.	\$79.95
101015	3/4" Open Seals, 2500 Count.....ea.	\$39.95
101016	3/4" Open Seals, 5000 Count.....ea.	\$79.95
101010	1-1/4" Open Seals, 1000 Count.....ea.	\$59.95

Serrated Seals for Plastic

Serrated seals are as the name implies - seals with rows of serrated teeth on the inside surface to give a better grip and high seal strength. They are essential to safely seal polyester straps with a clip

Part No.	Description	Price
103057	1/2" Open Serrated Seals 1000 Count.....ea.	\$84.95
103067	5/8" Open Serrated Seals 1000 Count.....ea.	\$69.95

Samuel Strapping Dispenser

Mobile dispenser. Complete with large tool and seal tray, 10" wheels, automatic brake, strap payoff on the side

Can be used with oscillated wound steel strapping or plastic strapping with 16" x 6" or 16" x 3"

Part No.	Description	Price
102168	Strapping Dispenser with Large Tray ea.	\$275.00

Semi Open Seals for Plastic

For use with polypropylene strap during lighter strapping applications.

Part No.	Description	Price
103056	1/2" Semi Open Seals 1000 Count.....ea.	\$26.95
103065	5/8" Semi Open Seals 1000 Count.....ea.	\$39.95

Push Seals for Steel

The strap is pre-threaded through the seal prior to tensioning. The overlapping flange feature provides the required strength as the tensioner pushes against the edge of the seal.

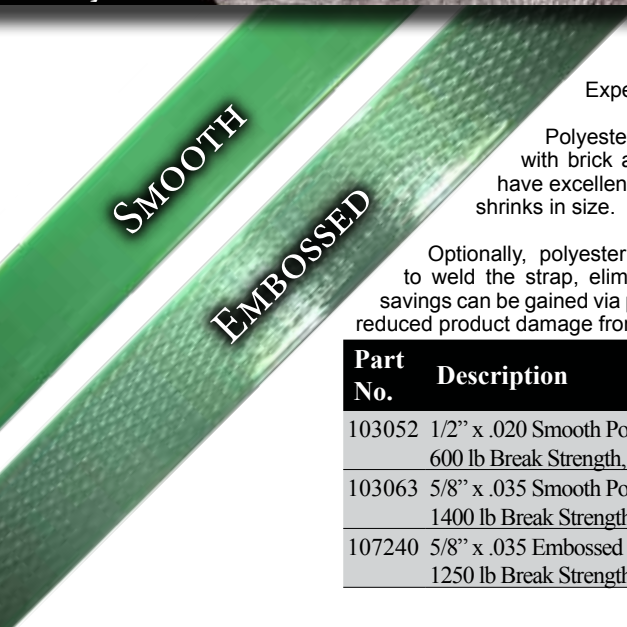

Part No.	Description	Price
101811	3/4" RD Push Type Seal, 2500 Count.....ea.	\$75.00
101814	3/4" HD Push Type Seal, 2000 Count.....ea.	\$89.95
104592	1-1/4" Push Type Seal, 1000 Count.....ea.	\$74.95

Buckles for Polypropylene

Buckles are the most economical method of strap joining since they require no special tool. They are exclusively for low volume, low tension strapping of light-weight packages or bundles. They are available in wire or plastic and should be used with polypropylene strap only.

Part No.	Description	Price
103058	1/2" Wire Buckles, 1000 Count.....ea.	\$29.95

Polyester Strapping

Experience cost-saving and high-performance benefits with industrial strength polyester strapping.

Polyester strapping is manufactured to the tightest industry standards and is AAR-approved for use with brick and lumber. To address the needs of heavy duty loads, polyester strapping is designed to have excellent retained tension, which keeps the strap tight around the load even if the package settles and shrinks in size.

Optionally, polyester strapping can use heat or friction seals to weld the strap, eliminating the need for metal seals. Additional savings can be gained via polyester's low strap cost per foot and through reduced product damage from seals or staining.

Part No.	Description	Price
103052	1/2" x .020 Smooth Polyester, 16" ID x 6" Face 600 lb Break Strength, 9000 feet/coil	\$94.95
103063	5/8" x .035 Smooth Polyester, 16" ID x 6" Face 1400 lb Break Strength, 4000 feet/coil	\$84.95
107240	5/8" x .035 Embossed Polyester, 16" ID x 6" Face 1250 lb Break Strength, 4200 feet/coil	\$89.95

Model P329 Battery Powered Plastic Strapping Tool

- » To be used with Polyester and Polypropylene plain and embossed strapping; capable of handling strap sizes up to 3/4".
- » High Tension Force up to 900 lbs.
- » Brushless motor for less maintenance and improved life time.
- » More temperature monitoring to protect motor from overheating.
- » Improved plates and guides - less effort required to remove the tool from the strap.
- » Simple one-handed operation.

Strap qualities	Polypropylene & Polyester
Strapping dimension	Widths: 5/8" - 3/4" Thicknesses: .026 - .053
Weight including battery	9.3 lbs
Tool sizes with battery	13.8" x 5.3" x 5.6"
Average seal strength	Up to 75% (depending on strap quality)
Type of seal	Friction weld sealing
Tension Force	112-900 lbs (adjustable)
Tensioning speed	1.9-3.1 inch/s
Power supply	Battery Li-Ion 18VDC / 4.0 Ah

Part No.	Description	Price
106926	P329 Battery Powered Plastic Strapping Tool..... ea.	\$2,795.00
106927	Lithium Ion Battery for P329..... ea.	\$195.00
106191	Battery Charger for P329 ea.	\$250.00

MINI-MAX OV101/102 Semi-Automatic Strapping Machines

- » 60 second warm up time
- » Heavy-duty, hinged, stainless steel top
- » Straps virtually any size carton
- » Easy strap loading
- » Simply Designed
- » Automatically feeds, tensions and heat seals strap
- » Adjustable to accommodate strap widths from 3/8" to 5/8"
- » External tension control permits strap tension for delicate or solid bundles
- » Portable, unit is mounted on locking casters for quick movement
- » Energy-saving, adjustable timer switch, automatically shuts off motor when not in use

Tensioning Range	33 - 100 lbs
Strapping Speed	2.5 seconds per strap
Power Supply	110 V, 60 Hz, Single Phase
Machine Dimensions	35.5" L x 22.8" W x 29.5" H

Part No.	Description	Price
107152	MINI-MAX OV101 Semi-Automatic Strapping Machine-Closed Cabinet ea.	\$795.00
107151	MINI-MAX OV102 Semi-Automatic Strapping Machine-Open Cabinet..... ea.	\$795.00

Stretch Film

Stretch film is generally used to hold items together for transport. Stretch wrap is pulled around the load and stretched. The plastic has a memory and wants to return to its original size. This "elastic band effect" holds the load tight. Works well for irregularly shaped items.

Four rolls per case.

Call for skid pricing.

Part No.	Description	Price
103518	18" 80 Gauge Hand Grade Stretch Film..... cs.	\$62.95
106284	12" 80 Gauge Hand Grade Stretch Film..... cs.	\$39.95

Polypropylene Strapping

The most economical of all strapping material, polypropylene is a light weight strapping that can be used for a variety of bundling applications. It is available in a wide variety of sizes and gauges and offers the greatest elongation of all strapping and has good initial recovery characteristics. Polypropylene can be heat sealed with a joint efficiency of 70 to 80%. By nature, polypropylene strapping is very flexible and has the ability to mold to contours of odd-shaped or irregular shaped packages. Many other sizes available.

Part No.	Description	Price
106971	Pistol Grip Stretch Film Applicator	\$49.95

Part No.	Description	Price
102649	1/2" x .031 Polypropylene Black 16" ID x 3" Face, Hand Grade 600 lb Break Strength, 3400 feet/coil	\$39.95 (2 rolls)

Metcalf Dresser

The Metcalf emery wheel dresser will true and shape grinding wheels up to 1-1/2" thick. Consisting of two balanced handles at the ends of a short shaft, with a special-grade, abrasive wheel that's mounted on the shaft sleeve. This construction provides the exact weight and balance necessary to provide the best dressing action. The Metcalf dresser is so accurate and easy to use that it will bring up a sharp corner on a thin or delicate wheel with little effort. A practice that isn't recommended for diamond or ordinary dressers.

Part No.	Description	Price
102651	Metcalf Dresser Wheel 1-1/2 x 3-1/2 x 7/8..... ea.	\$24.95
104434	Metcalf Dresser ea.	\$135.00

Desmond Dresser

Dressing cleans away foreign particles and exposes sharp new cutting edges. Place cutter head on tool rest. Firmly push dresser into grinding wheel. If sparking occurs, press harder on dresser. Traverse cutters back and forth across wheel.

Part No.	Description	Price
